Valley Falls, NY 12185
Admission by donation

Re:Soundings presents Vermont composer **Dennis Bathory-Kitsz**, capital district composer **Michael Farley**, and New York composer **Daniel Goode**, as well as Hudson resident William Hellermann performing with Goode. A potluck supper will follow the concert—all are welcome.

Dennis Bathory-Kitsz is a composer of more than 700 works. "Glistening tones ring in the air, bits of deconstructed voices float by, a dark bass pulse starts up that's more felt than heard, in large-scale periodic cycles."—Kyle Gann, *Village Voice*. For ten years Bathory-Kitsz co-hosted a radio show, Kalvos and Damian, that was broadcast on the internet and was a beacon for those interested in contemporary classical music (non-pop).

Michael Farley collects found sounds and creates pieces blending them, designing to please the ear. "Rich in intensity, language, culture and production, it is brilliant. Farley is capable of recording a conversation that never happened and has the power to give it a voice."—*Veinzine*

Daniel Goode's *Misinterpretation* for speaker and instruments will be performed, a take on the plight of the artist today. Goode and Hellermann are co-founders of the DownTown Ensemble, a new music group that was founded in 1983. "[Goode] won't conform to memory."—*Village Voice*

Valley Falls is 20 minutes north of Troy and 25 minutes west of North Bennington.
